

Bright People: Dedication and Hard Work Set Them Apart

Through 30 years of producing quality millwork, many new innovations and developments have been introduced at Bright Wood. These things have increased quality and made our company more productive and safer.

But it's been the people here at Bright Wood that have given us a competitive advantage in our challenging and ever-changing industry. People have, and continue to make Bright Wood what it is today, an industry leader and a company that is highly regarded for it's quality and customer service.

The people below are truly "Bright People". They have helped guide Bright Wood through the good times, and the bad. Their dedication, hard work, and pride sets them apart, and they're living proof that people make the difference at Bright Wood. Congratulations to these people and everyone at Bright Wood for a job well done.
